

49.9 Sec. 7. Minnesota Statutes 2014, section 137.025, is amended by adding a subdivision
49.10 to read:

49.11 Subd. 2a. Appropriations from Minnesota environment and natural resources
49.12 trust fund. (a) The commissioner of management and budget shall pay no money to
49.13 the University of Minnesota pursuant to a direct appropriation from the Minnesota
49.14 environment and natural resources trust fund until the University of Minnesota requests
49.15 reimbursement for expenditures related to the direct appropriation. The reimbursement
49.16 request shall specify expenditures by appropriation. The commissioner of management
49.17 and budget shall reimburse the University of Minnesota by the 25th day of the month
49.18 following the reimbursement request. If the 25th day of the month falls on a Saturday,
49.19 Sunday, or holiday, the payment must be made by the first business day immediately
49.20 following the 25th day of the month.

49.21 (b) For each year the appropriation is available, the University of Minnesota must
49.22 submit an encumbrance request to the commissioner of management and budget by
49.23 July 31 for the prior fiscal year. The encumbrance request shall identify the amount the
49.24 university anticipates it will request for reimbursement for expenses in the prior fiscal
49.25 year by appropriation. The commissioner of management and budget shall maintain
49.26 this amount as an encumbrance at the state level until the university submits its final
49.27 reimbursement request for that fiscal year.

49.28 (c) Final requests for reimbursement must be made within 90 days from the last day
49.29 the appropriation is available to reimburse expenditures."
