**RE: Letter of Support for Glacial Lakes Trail Extension**

Dear LCCMR,

On behalf of the Minnesota Senate, I'm writing in support of the Minnesota DNR's LCCMR funding request (Project #2026-287) to complete the Glacial Lakes Trail extension connecting Sibley State Park to New London.

This project has been years in the making and would be a major win for our region. Tourism is the second largest economic driver in Kandiyohi County and in the northern half of the county, it's number one. Finishing this trail would strengthen our economy, create more opportunities for healthy recreation, and expand safe routes to school for local students.

This is a smart, community-focused investment that's been long awaited. I strongly encourage the Commission to support this project.

Thank you for your time and service on this important committee.

Sincerely,

A handwritten signature in black ink, appearing to read 'Andrew Lang'.

Andrew Lang  
State Senator  
District 16

CC: Kandiyohi County Board of Commissioners
