Subject: Update on 2010 LCCMR Recommendations - Legislative Action
Attachments: HF2624 Senate Unofficial Engrossment - posted 3-23.pdf

Dear LCCMR Members,

On Tuesday, April 13 the Senate took up the LCCMR recommendations (Senate Version HF 2624, Unofficial Engrossment), for 2010 Environment and Natural Resources Trust Fund Appropriations on General Orders.

The discussion of the recommendations began with an introduction by Senator Ellen Anderson (chief author) and her recognition of the work of the full LCCMR. In particular she recognized the LCCMR retiring Senate Members, Senators Vickerman, Frederickson and Pariseau. Each of them spoke to the process and the work of the LCCMR.

During the debate 6 amendments were offered. None of the amendments were adopted (outlined below) and the bill was passed (voice vote) on General Orders to be placed on the Calendar for final passage.

The amendments offered and discussed are outlined below:

1. **Amendment:** Senator Bakk moved to amend by adding an appropriation of \$4,202,400 for improvements to state parks.

This was done by deleting or reducing as follows:

All Fee Title Acquisitions were removed from the Senate version of H.F. 2624. Funding for conservation easements was not reduced or deleted.

Subd. 4b – “Scientific and Natural Areas and Native Prairie Restoration, Enhancement and Acquisition” was reduced from \$1,750,000 to \$1,368,100 (reduced for SNA acquisition by \$381,900)

Subd. 4c – “State Park Land Acquisition” was reduced from \$2,200,000 to \$0

Subd. 4e – “Minnesota’s Habitat Conservation Partnership Supplemental (HCP)” was reduced from \$1,400,000 to \$1,044,500 (a reduction of \$355,500). All fee title was removed as follows:

- DNR Fisheries AMA and Professional Services for Acquisition appropriation was reduced from \$318,000 to \$208,000 (reduced by \$110,000)
- The Nature Conservancy appropriation was reduced from \$210,000 to \$164,500 (reduced \$45,500)
- Trust for Public Land appropriation was reduced from \$200,000 to \$0
- Language regarding acquisitions was also removed from this section

Subd. 4f – “Metropolitan Conservation Corridors Supplemental (MeCC)” was reduced from \$1,800,000 to \$535,000 (a reduction of \$1,265,000). All fee title was removed as follows:

- Trust for Public Land appropriation was reduced from \$915,000 to \$0

- Minnesota Valley National Wildlife Refuge Trust, Inc. appropriation was reduced from \$350,000 to \$0

After much discussion the Amendment was withdrawn.

2. **Amendment:** Senate Ortman moved to amend by adding on language to Subd. 4c State Park Acquisition a statement that “any land purchased with this appropriation must be acquired by direct purchase from the owner and may be not acquired by eminent domain.”

The amendment did not prevail by a vote of 32-34

3. **Amendment:** Senator Hann moved to amend by inserting an appropriation of \$2,677,000 for state park asset preservation.

This was done by deleting the following:

- Subd. 3i – “Farmland Conservation in Minnesota” - \$100,000
- Subd. 5e – “Assessing Septic System Discharge to Lakes” - \$594,000
- Subd. 5f – “Evaluation of Dioxins in Minnesota Lakes” - \$264,000
- Subd. 5h – “Assessing Cumulative Impacts of Shoreline Development” - \$300,000
- Subd. 7b – “Sustainable Biofuels” - \$221,000
- Subd. 8b – “Engaging Students in Environmental Stewardship through Adventure Learning” - \$250,000
- Subd. 8c – “Connecting Youth with Nature” - \$160,000
- Subd. 8e – “Get Outside – Urban Woodland for Kids” - \$218,000
- Subd. 8g – “Integrating Environmental and Outdoor Education in Grade 7-12” - \$300,000

There was a handout that accompanied the amendment with the above projects listed that also included Subd. 5(b) Managing Mineland Sulfate Release in St. Louis River Basin at \$270,000.

The actual amendment language did not list Subd. 5(b). However, the deletion of all of the 10 projects would have been necessary to total \$2,677,000.

The amendment did not prevail by a vote of 13-50 (Note: reductions are off by \$270,000)

4. **Amendment:** Sen. Jungbauer offered an amendment to delete Subd. 8b - “Engaging Students in Environmental Stewardship through Adventure Learning” - \$250,000.

The amendment did not prevail by a vote of 18-43

5. **Amendment:** Senator Murphy offered an amendment to repeal MS 2008, Section 116P.05, subdivision 1, 1a, 3 and MS 2009 Supplement section 116P.05, subdivision 2.

This eliminates the membership and duties of the LCCMR

The amendment did not prevail by a voice vote

6. **Amendment:** Senator Hann offered an amendment to require the peer review comments be posted on the web and be public information.

The amendment did not prevail by a vote of 22-37
