Re: Conflict of Interest

For this funding cycle, I wish to declare a conflict of interest regarding project **190-G, Students and Citizens Partnering to Protect Water**. Due to my close association as a water quality monitor (volunteer) with Kanabec County SWCD and Water Board, my interaction with local students and teachers working on water quality issues, and my advice to the proposer (Minnesota Waters), it is appropriate that I refrain from commenting or voting on that project under the following LCCMR guideline:

. . . . certain affiliations may constitute a conflict of interest that must be managed by the LCCMR. They include:

- serving with or without payment as a consultant to a proposer on the proposal being reviewed by LCCMR

Thank you,

Elizabeth A. Wilkens
