30.11	Commission on Minnesota Resources. Money
30.12	appropriated in this section must not be spent
30.13	on indirect costs or other institutional overhead
30.14	charges that are not directly related to and

30.19	and utilities, are eligible only if the costs can
30.20	be clearly justified and individually
30.21	documented specific to the appropriation's
30.22	purpose and would not be generated by the

31.20	projects funded under this section should be
31.21	readily accessible on the Internet and
31.22	identified as having received funding from the
31.23	environment and natural resources trust fund.
31.24	Subd. 13. Project Requirements
31.25	(a) As a condition of accepting an

32.21	practicable, is consistent with the
32.22	highest-quality conservation and ecological
32.23	goals for the restoration site. Consideration
32.24	should be given to soil, geology, topography,
32.25	and other relevant factors that would provide
32.26	the best chance for long-term success and
32.27	durability of the restoration project. The plan
32.28	must include the proposed timetable for
32.29	implementing the restoration, including site
32.30	preparation, establishment of diverse plant
32.31	species, maintenance, and additional
32.32	enhancement to establish the restoration;
32.33	identify long-term maintenance and
32.34	management needs of the restoration and how
32.35	the maintenance, management, and

33.1	enhancement will be financed; and take

33.9	evaluation three years after the completion of
33.10	the expenditure. Restorations must be
33.11	evaluated relative to the stated goals and
33.12	standards in the restoration plan, current
33.13	science, and, when applicable, the Board of
33.14	Water and Soil Resources' native vegetation
33.15	establishment and enhancement guidelines.
33.16	The evaluation must determine whether the
33.17	restorations are meeting planned goals,
33.18	identify any problems with implementing the
33.19	restorations, and, if necessary, give
33.20	recommendations on improving restorations.
33.21	The evaluation must be focused on improving
33.22	future restorations.
33.23	(e) All restoration and enhancement projects
33.24	funded with money appropriated in this section
33.25	must be on land permanently protected by a
33.26	conservation easement or public ownership.
33.27	(f) A recipient of money from an appropriation

34.10	enforcement plan and funding for monitoring
34.11	and enforcing the easement agreement; and
34.12	(6) include requirements in the easement
34.13	document to protect the quantity and quality
34.14	of groundwater and surface water through
34.15	specific activities such as keeping water on
34.16	the landscape, reducing nutrient and
34.17	contaminant loading, and not permitting
34.18	artificial hydrological modifications.
34.19	(h) For any acquisition of lands or interest in
34.20	lands, a recipient of money appropriated under
34.21	this section must not agree to pay more than
34.22	100 percent of the appraised value for a parcel
34.23	of land using this money to complete the

34.33	this section must give priority to high-quality

35.1	natural resources or conservation lands that
35.2	provide natural buffers to water resources.
35.3	(j) For new lands acquired with money
35.4	appropriated under this section, a recipient
35.5	must prepare an ecological restoration and
35.6	management plan in compliance with
35.7	paragraph (c), including sufficient funding for
35.8	implementation unless the work plan addresses

35.10	to achieve a high-quality restoration.
35.11	(k) To ensure public accountability for using
35.12	public funds, a recipient of money
35.13	appropriated under this section must, within
35.14	60 days of the transaction, provide to the
35.15	Legislative-Citizen Commission on Minnesota
35.16	Resources documentation of the selection
35.17	process used to identify parcels acquired and
35.18	provide documentation of all related
35.19	transaction costs, including but not limited to
35.20	appraisals, legal fees, recording fees,

35.23	for all parties involved in the transaction. The
35.24	recipient must also report to the
35.25	Legislative-Citizen Commission on Minnesota
35.26	Resources any difference between the
35.27	acquisition amount paid to the seller and the
35.28	state-certified or state-reviewed appraisal, if

35.30	was conducted.
35.31	(l) A recipient of an appropriation from the

36.3	Acknowledgment may occur, as appropriate,
36.4	through use of the trust fund logo or inclusion
36.5	of language attributing support from the trust
