Work Program Summary

Overall Project Outcome and Results

The Restorable Wetlands Working Group and local government and non-government funding partners have completed restorable wetland mapping and digital data development for over 40% of the Habitat Corridors Partnership project areas. This proposal seeks funding to delineate restorable wetlands in 2,575 mi² of the Border Prairie and Southern Lakes corridors project areas, and to assist in identifying wetland restoration priority areas within these corridors.

Projects Results Use and Dissemination

RWI product has been completed for Western Ottertail and Western Becker Counties (in the Border Prairie Project Area Corridor) with data publicly available on the www.ducks.org website. Work within the Border Prairie Project Corridor Area is funded by the USFWS and is provided as match under this phase.

Within the Southern Lakes Project Area Corridor, the RWI product for Blue Earth, Nicollet, and Le Sueur Counties is complete with data publicly available on the www.ducks.org website.
