Appropriation Language:

\$1,344,000 is added to Laws 2009, chapter 143, section 2, subdivision 4, paragraph (e), from the trust fund for the acceleration of agency programs and cooperative agreements. Of this appropriation, \$308,000 is to the commissioner of natural resources for agency programs and \$1,036,000 is for agreements as follows: \$425,000 with Ducks Unlimited, Inc.; \$50,000 with National Wild Turkey Federation; \$164,000 with the Nature Conservancy; \$102,000 with Minnesota Land Trust; \$200,000 with the Trust for Public Land; \$45,000 with Friends of Detroit Lakes Wetland Management District; and \$50,000 to the Leech Lake Band of Ojibwe to plan, restore, and acquire fragmented landscape corridors that connect areas of quality habitat to sustain fish, wildlife, and plants. The United States Department of Agriculture Natural Resources Conservation Service is an authorized cooperating partner in the appropriation. Expenditures are limited to the project corridor areas as defined in the work program. Land acquired with this appropriation must be sufficiently improved to meet at least minimum habitat and facility management standards as determined by the commissioner of natural resources. This appropriation may not be used for the purchase of residential structures, unless expressly approved in the work program. All conservation easements must be perpetual and have a natural resource management plan. Any land acquired in fee title by the commissioner of natural

resources with money from this appropriation must be designated as an outdoor recreation unit under Minnesota Statutes, section 86A.07. The commissioner may similarly designate any lands acquired in less than fee title. A list of proposed restorations and fee title and easement acquisitions must be provided as part of the required work program. All funding for conservation easements must include a long-term stewardship plan and funding for monitoring and enforcing the agreement.

II. PROJECT SUMMARY AND RESULTS: DNR Fish and Wildlife will secure approximately 40 acres (0.5 miles of shoreline) as fee title AMAs. Parcels will be managed as AMAs.

III. PROGRESS SUMMARY AS OF []: No results as of this date.

IV. OUTLINE OF PROJECT RESULTS:

RESULT/ACTIVITY 1: Fisheries Land Acquisition: Project money will secure fee title or easements on approximately 40 acres (0.5 miles of shoreline). Priority will be given to acquiring regionally significant fish and wildlife habitat that will both build on the existing shoreline habitat and provide angler access. All listed projects have an expected value greater than \$100,000. Dollars may be spread over two or more listed projects. Deliverables are listed in the order they are expected to mature.

V. TOTAL ENRTF PROJECT BUDGET

Acquisition (Fee Title or Permanent Easements): \$ 90,000

-Fee title acquisitions of approximately 40 acres (0.5 miles of shoreline) to be managed by DNR as Aquatic Management Areas

Additional Budget Items: \$ 10,000

- Professional Services for acquisition

VI. Project Strategy:

A. Project Partners: There are no project partners.

B. Project Impact and Long-term Strategy: These projects are part of a long-term acquisition strategy identified in “Minnesota’s Aquatic Management area Acquisition Plan 2008-2033” and will complement projects funded with other State dollars. This plan came as a report to DNR – Fish and Wildlife, focusing on “Shoreline Habitat, Angling, and Clean Water for Our Future”. Minnesota’s AMA Plan is listed as one of the Land Protection Options (2A) listed in the Minnesota Conservation and Preservation Plan.

C. Other Funds Proposed to be Spent during the Project Period: Project will likely require additional State funds including Bonding and/or LSOHC dollars, as well as some donation of land value.
