This appropriation will be used to continue and enhance contract management services to pass-through recipients of ENRTF appropriations to the Commissioner of Natural Resources. The goal of contract management is to ensure that grantees are properly reimbursed and that organizations operate in compliance with ENRTF pass-through appropriation procedures, policies from the Department of Administration's Grants Management, ENRTF statute, and the recommendations of the Legislative Auditor. Contract management includes: grant agreements and amendments, training, technical assistance, reporting, fiscal monitoring, reimbursement request processing, and close-out of grants.

**What are the specific project outcomes as they relate to the public purpose of protection, conservation, preservation, and enhancement of the state's natural resources?**

The OMBS Grants Unit's goal is to provide pass-through recipients with the contract management, technical assistance, and grant monitoring they need to successfully complete their conservation work. The Grants Unit provides grantees with one consistent point of contact for their agreements and delivers timely, responsive, customer service.

# Environment and Natural Resources Trust Fund Contract Management Measures

The OMBS Grants Unit tracks several basic metrics to judge trends in contract management work and set strategic and staffing goals for the year.

## Open Grants Per Year

The number of open Environment and Natural Resources Grants per year increased sharply from 2015 to 2017, and then again slightly in 2019. Grants last an average of 2.25 years.

## Payments to Grantees

Grant Specialists process 160 payments a year on average. While the number of payments has been increasing due to number of open grants, it is also dependent on individual grantee practices, as is shown with the dip in 2019. Payments are on track to increase in 2020.
