

Environment and Natural Resources Trust Fund

M.L. 2023 Approved Work Plan

General Information

ID Number: 2023-051

Staff Lead: Mike Campana

Date this document submitted to LCCMR: May 25, 2023

Project Title: Statewide Environmental Education via PBS Outdoor Series

Project Budget: \$391,000

Project Manager Information

Name: Cindy Dorn

Organization: Pioneer PBS

Office Telephone: (800) 726-3178

Email: cdorn@pioneer.org

Web Address: <https://www.pioneer.org/>

Project Reporting

Date Work Plan Approved by LCCMR: June 22, 2023

Reporting Schedule: April 1 / October 1 of each year.

Project Completion: June 30, 2025

Final Report Due Date: August 14, 2025

Legal Information

Legal Citation: M.L. 2023, Chp. 60, Art. 2, Sec. 2, Subd. 05b

Appropriation Language: \$391,000 the first year is from the trust fund to the commissioner of natural resources for an agreement with Pioneer Public Broadcasting Service to produce new episodes of a statewide public television series and an educational web page designed to inspire Minnesotans to connect with the outdoors and to restore and protect the state's natural resources.

Appropriation End Date: June 30, 2026

Narrative

Project Summary: Pioneer PBS will produce 26 new episodes of a statewide television series designed to inspire Minnesotans to connect with the outdoors and to restore and protect our valuable natural resources.

Describe the opportunity or problem your proposal seeks to address. Include any relevant background information.

This project addresses the long-term need for environmental education, engagement and tools that Minnesotans can use to restore and protect our valuable natural resources. The program's opportunity is to reach out to a statewide audience and inspire viewers to connect with the outdoors, increase their environmental science knowledge and adopt conservation practices. High-quality video programming is an enjoyable way to educate Minnesotans about research and advancements in natural resource management and sustainable agricultural practices, and how we can all improve water quality, protect wildlife habitat, promote pollinators and restore our natural world. Understanding the dangers of contaminants such as salt, lead, microplastics and polluted runoff can inspire people to make changes in their purchases and behaviors that are environmentally friendly. As background to the quality of productions that can be expected, Prairie Sportsman has received four Upper Midwest Emmy awards, including three for stories about conservation and wildlife research topics and one for Bret Amundson's hosting talent. Award-winning "evergreen" productions are an opportunity to promote environmental education and stewardship for years to come.

What is your proposed solution to the problem or opportunity discussed above? Introduce us to the work you are seeking funding to do. You will be asked to expand on this proposed solution in Activities & Milestones.

Broadcast in 2024 and 2025 from late January to mid-May, the two 13-episode seasons will be filmed at locations throughout the state and feature a wide range of topics that appeal to diverse, changing demographics as well as traditional viewers. In addition to environmental education, Prairie Sportsman promotes fun ways to connect with the outdoors that are intended to inspire people of all ages, demographics and socioeconomic backgrounds to replace screen time with outdoor time, which is the path to environmental stewardship. Each season will include at least 13 segments on research, natural resource management and agricultural practices that benefit the environment. Episodes will also include outdoor sports and recreation stories and special features on citizen scientists, artists, chefs and others connecting with nature in innovative ways. In addition, the project will create easy online access to stories featuring ENRTF-supported projects. All Minnesota PBS stations air Prairie Sportsman including Pioneer, KSMQ (Austin), Lakeland PBS (Bemidji and Brainerd), tptLife (Twin Cities), WDSE (Duluth) and the MN Channel, carried by all Minnesota PBS stations and Prairie Public TV in Fargo. Minnesota's outdoors and conservation accomplishments are also showcased on all PBS stations airing Prairie Sportsman in Wisconsin, Iowa, South Dakota and Wyoming.

What are the specific project outcomes as they relate to the public purpose of protection, conservation, preservation, and enhancement of the state's natural resources?

This project provides a statewide television and online audience with inspirational and educational environmental science and conservation content. Individual segments contained within this project's 26 episodes will be produced as stand-alone videos, distributed online and made available to public agencies, learning centers, outdoor organizations, civic organizations and educational institutions, with branded online access to stories about ENRTF-funded projects. This extends each segment's "evergreen" public education and outreach value for years to come. For example, past segments have been included in educational programs of the National Eagle Center, Minnesota DNR, wildlife associations, schools and colleges, lake associations and others.

Project Location

What is the best scale for describing where your work will take place?

Statewide

What is the best scale to describe the area impacted by your work?

Statewide

When will the work impact occur?

During the Project and In the Future

Activities and Milestones

Activity 1: Produce, promote and distribute 26 episodes with a minimum of 26 environmental education segments

Activity Budget: \$376,000

Activity Description:

The 26 new episodes will be distributed via Minnesota PBS stations and online. Each 13-episode season will include a minimum of 13 environmental education segments on research, natural resource management or agricultural practices that benefit the environment. Episodes will also include outdoor sports and recreation stories that inspire Minnesotans to connect with the outdoors, and special features on citizen scientists, artists, chefs and others connecting with nature in innovative ways. Broadcast in 2024 and 2025 from late January to mid-May, the two 13-episode seasons will be filmed at locations throughout the state and feature a wide range of topics that appeal to diverse, changing demographics as well as traditional viewers.

Activity Milestones:

Description	Approximate Completion Date
Produce 13 episodes with 13 environmental education segments for the 2024 season	May 31, 2024
Create individual segments to distribute via DVDs, website and social media	June 30, 2024
Produce 13 episodes with 13 environmental education segments for the 2025 season	May 31, 2025
Create individual segments to distribute via DVDs, website and social media	June 30, 2025

Activity 2: Design branded web page featuring stories on ENRTF-funded projects

Activity Budget: \$15,000

Activity Description:

Create online, branded access to stories featuring Environment and Natural Resources Trust Fund projects with engaging text and graphics. Promote the web access through social media, e-newsletters and other communications.

Activity Milestones:

Description	Approximate Completion Date
Design web page with ENRTF branding/logo linked to Prairie Sportsman website	December 31, 2023
Create descriptions and images for 2024 stories featuring ENRTF projects	May 31, 2024
Promote stories on social media	December 31, 2024
Continue branding, linking and promoting 2025 ENRTF stories	June 30, 2025

Dissemination

Describe your plans for dissemination, presentation, documentation, or sharing of data, results, samples, physical collections, and other products and how they will follow ENRTF Acknowledgement Requirements and Guidelines.

This project provides a statewide television and online audience with inspirational and educational environmental science and conservation content. Individual segments contained within this project's 26 episodes will be produced as stand-alone videos, distributed online and made available on DVD, thumb drive or other accessible format to public agencies, learning centers, outdoor organizations, civic organizations and educational institutions, with branded online access to stories about ENRTF-funded projects. This extends each segment's "evergreen" public education and outreach value for years to come. For example, past segments have been included in educational programs of the National Eagle Center, Minnesota DNR, wildlife associations, schools and colleges, lake associations and others. Major funding from the Environment and Natural Resources Trust will be acknowledged through voice over and the ENRTF logo at the beginning and end of every Prairie Sportsman episode. The logo preceded by the text "Major funding provided by" will appear at the end of every segment distributed through the PBS video platform online, on social media and on DVDs. The ENRTF logo is also included on all Prairie Sportsman communications, including our website, e-newsletter and other communications.

Long-Term Implementation and Funding

Describe how the results will be implemented and how any ongoing effort will be funded. If not already addressed as part of the project, how will findings, results, and products developed be implemented after project completion? If additional work is needed, how will this work be funded?

Prairie Sportsman stories are "evergreen" videos and can be broadcast and used in educational settings for years to come. The program's statewide focus and high-quality content has steadily increased our audience reach. Production and other related expenses above the ENRTF grant are covered by sponsorship dollars. Although we lost three primary underwriters after COVID-19 arrived, Pioneer PBS has interest from several new sponsors that market to our expanded viewing area. These dollars will cover travel, transcripts, closed-captioning, voice work, marketing and other production expenses.

Other ENRTF Appropriations Awarded in the Last Six Years

Name	Appropriation	Amount Awarded
New Prairie Sportsman Statewide Broadcast Video Project	M.L. 2016, Chp. 186, Sec. 2, Subd. 05d	\$300,000
Prairie Sportsman Statewide Environmental Broadcasts and Videos	M.L. 2018, Chp. 214, Art. 4, Sec. 2, Subd. 05a	\$300,000

Difference between Proposal and Work Plan

Describe changes from Proposal to Work Plan Stage

We have not made any changes with the exception of adding "thumb drive or other accessible format," in addition to online and DVDs, to distribute individual stories as those methods may be more practical and useful.

Additional Acknowledgements and Conditions:

The following are acknowledgements and conditions beyond those already included in the above workplan:

Do you understand and acknowledge the ENRTF repayment requirements if the use of capital equipment changes?

N/A

Do you agree travel expenses must follow the "Commissioner's Plan" promulgated by the Commissioner of Management of Budget or, for University of Minnesota projects, the University of Minnesota plan?

N/A

Does your project have potential for royalties, copyrights, patents, or sale of products and assets?

No

Do you understand and acknowledge IP and revenue-return and sharing requirements in 116P.10?

N/A

Do you wish to request reinvestment of any revenues into your project instead of returning revenue to the ENRTF?

N/A

Does your project include original, hypothesis-driven research?

No

Does the organization have a fiscal agent for this project?

No
