### I. PROJECT STATEMENT

This proposal is directly tied to the land acquisition efforts of the Habitat Conservation Corridor Partners, and ensures that newly acquired lands can be entered into the WMA system, and that restoration and development of newly acquired lands can begin on a timely basis. This proposal includes only professional services costs. Development costs will be covered under a separate proposal through HCP.

### II. DESCRIPTION OF PROJECT ACTIVITIES

**Activity 1:** Habitat Acquisition – Professional Services **Budget:** \$35,000

The Minnesota DNR Division of Fish and Wildlife will provide professional services and pay the associated costs of conveying lands acquired by partners under this project to the Department. Professional services include the following: staff time for the Division of Lands and Minerals (\$80/hour) and the Attorney General's Office (\$110/hour), survey costs, recording and abstracting fees, and deed tax. The total cost to process and complete the estimated land conveyances to the DNR under this program is approximately 10% of the total value of these acquisitions.

DNR cannot start work until the Partners have completed acquisition on each parcel. DNR and Partners have estimated that **400 acres** will be acquired and turned over to DNR, but it is unknown how many final parcels will be acquired, or when the acquisitions will be completed. The work completed under this proposal is dependent on the acres, types, and condition of lands acquired by the partners. All work will be completed by June 30, 2013.
