2024 Request for Proposal

General Information

Proposal ID: 2024-021

Proposal Title: Littlefork Public RV Campground Design

Project Manager Information

Name: Sonja Pelland

Organization: City of Littlefork

Office Telephone: (218) 278-6710

Email: lttlfork@hotmail.com

Project Basic Information

Project Summary: This project consists of the design, surveying, permitting, wetlands delineation, site evaluations and geotechnical engineering (Phase 1) of the Littlefork Public RV Campground.

Funds Requested: \$195,000

Proposed Project Completion: September 30, 2026

LCCMR Funding Category: Small Projects (H)

Secondary Category: Land Acquisition, Habitat, and Recreation (G)

Project Location

What is the best scale for describing where your work will take place?

Region(s): NE

What is the best scale to describe the area impacted by your work?

Region(s): NE

When will the work impact occur?

During the Project

Narrative

Describe the opportunity or problem your proposal seeks to address. Include any relevant background information.

The City of Littlefork has recently acquired a forty acre tract of property that was formerly used for a gravel quarry. The city will be developing this piece of property to create a campground to attract more tourists to their city to enjoy the region's numerous outdoor recreation activities and to also enhance outdoor activities for the residents of the city and residents located in surrounding communities. The city's intent with this campground is to appeal to RV campers as well as to serve campers looking for off trail vehicles opportunities as it is located along the Blue Ox State ATV Trail. The campground will be equipped with an ATV wash station and loading ramp to accommodate the ATV users. The campground is also located just off of US Highway 53 in northeastern Minnesota which sees large volumes of traffic that visit this region to spent time in the outdoors fishing, boating, camping, hunting, kayaking, canoeing, bird watching, hiking, bicycling, snowshoeing, cross country skiing, visiting resorts and staying in cabins.

What is your proposed solution to the problem or opportunity discussed above? Introduce us to the work you are seeking funding to do. You will be asked to expand on this proposed solution in Activities & Milestones.

Littlefork will be completing this project in two phases. Phase 1 would include the completion of all of the design, geotechnical engineering, surveying, wetlands delineations, permitting and any other site analysis. The total cost of Phase 1 is estimated at \$195,000. The City of Littlefork is requesting \$195,000 from the LCCMR (This Application) to complete Phase 1. Phase 2 of this project will consist of the actual construction of the campground and all amenities once all necessary funds are secured. This new campground will will include over thirty new camp sites that will be designed to accommodate RV camping vehicles and traditional tent campers. This abandoned gravel quarry site does include two ponds that will be renovated and modified for recreational uses including a city swimming beach, paddleboat usage and fishing opportunities. The campground will also include a camp office/shower/restroom facility to serve campers. Water, sewer and electrical utilities will be constructed at the campground as well as a playground for young campers and a dock for water access. Additional amenities include parking areas, ADA sidewalks, signage, security fencing and gates, fire rings, picnic tables, benches and traffic control.

What are the specific project outcomes as they relate to the public purpose of protection, conservation, preservation, and enhancement of the state's natural resources?

The immediate outcome of Phase 1 of this project will be the completion the tasks identified above. The overall outcomes of this project will eventually include a variety of outdoor recreation activities that will be available for people of all ages. Including a new beach and fishing pond are great examples of preserving and enhancing the states natural resources by enhancing and modifying an old gravel quarry into new uses. The access to the adjacent ATV Trail gives campers the ability to access other area communities, businesses and tourist attractions as the Blue Ox Trail links with other existing trails.

Activities and Milestones

Activity 1: Project Phase 1 of This Project Includes Campground Design, Geotechnical Engineering, Survey, Wetlands, Permitting and Site Analysis.

Activity Budget: \$195,000

Activity Description:

Activities include site evaluation, permitting, engineering design, construction of administration, construction observation, environmental review and wetlands review and delineation.

Activity Milestones:

Description	Approximate Completion Date
Engineer Selected Through a Competitive Process	July 31, 2024
All Permits Secured	August 31, 2026
Site design, survey, site analysis, engineering plans and specifications completed.	September 30, 2026

Project Partners and Collaborators

Name	Organization	Role	Receiving Funds
City Mayor and City Administrator	City of Littlefork	Project Administration	No
Paul Nevanen	Koochiching Economic Development Authority	Public Relations	No
Bruce Beste	Voyageur Country ATV	Trail Liaison	No

Long-Term Implementation and Funding

Describe how the results will be implemented and how any ongoing effort will be funded. If not already addressed as part of the project, how will findings, results, and products developed be implemented after project completion? If additional work is needed, how will this work be funded?

The City of Littlefork will be responsible for all operation and maintenance costs for the life of the campground. The city will be reinvesting all potential revenues derived from the campground, once constructed, back into the facility for all renovations and expansions. The city will also include dollars in their annual budget that will be dedicated to the campground to ensure all necessary repairs and upkeep are completed.

Project Manager and Organization Qualifications

Project Manager Name: Sonja Pelland

Job Title: City Administrator/Clerk-Treas.

Provide description of the project manager's qualifications to manage the proposed project.

The manager for this project will be the City of Littlefork through the direction of the Mayor and City Council and the City Administrator/Clerk-Treasurer. Additional project management and over-site will come from the consulting engineer. Mayor Mike Fort and City Administrator Sonja Pelland were instrumental in acquiring the property where the campground will be constructed and also in the city planning of this project. The Mayor, City Council and City Staff have many years of experience in managing city projects. They are responsible of all of the day to day activities of the city and are also responsible for overseeing the city departments including services, administration, emergency services, police, fire, parks and recreation, public works, community building and the airport. The city government consists of the Mayor and four council members. Littlefork is a public corporation under the laws of Minnesota. Littlefork is a statutory city which operates under Chapter 412 of the Minnesota Statutes, commonly known as the City Code.

Organization: City of Littlefork

Organization Description:

Littlefork is a small city of approximately 553 residents located ten miles south of the Canadian border on US Highway 71 and is the closest route to Voyageurs National Park from the West. The economic base for the area is timber, agriculture, and tourism. Major employers in the area besides 5 major logging operations are the Littlefork Medical Center (40 bed nursing home and senior apartments), Independent School District 362 - K through 12, Minnesota DNR headquarters, North Star Electric and Green Forest Wood Products. The city has a water/sewer department, a volunteer fire department, a volunteer ambulance department, a grass strip airport. The city is located on the Littlefork River and has two parks, one has a playground with a softball field and a skating rink, the other has 14 campsites, tennis courts and a disc golf course. Hunting, fishing, canoeing, kayaking, hiking, snowmobiling and ATV riding are popular activities in the area.

Administrative Use

Does your project include restoration or acquisition of land rights?

No

Does your project have potential for royalties, copyrights, patents, or sale of products and assets?

Yes

Do you understand and acknowledge IP and revenue-return and sharing requirements in 116P.10?

Yes

Do you wish to request reinvestment of any revenues into your project instead of returning revenue to the ENRTF? If so, describe here:

Yes, Revenues from the campground will be used for annual operation and maintenance of the campground once the campground is up and running.

Does your project include original, hypothesis-driven research?

No

Does the organization have a fiscal agent for this project?

No

Does your project include the design, construction, or renovation of a building, trail, campground, or other capital asset costing \$10,000 or more?

Yes

Do you propose using an appropriation from the Environment and Natural Resources Trust Fund to conduct a project that provides children's services, as defined in Minnesota Statutes section 299C.61 Subd.7?

No
