This appropriation will be used to continue and enhance contract management services to pass-through recipients of ENRTF appropriations to the Commissioner of Natural Resources. The goal of contract management is to ensure that grantees are properly reimbursed and that organizations operate in compliance with ENRTF pass-through appropriation procedures, policies from the Department of Administration's Grants Management, ENRTF statute, and the recommendations of the Legislative Auditor. Contract management includes: grant agreements and amendments, training, technical assistance, reporting, fiscal monitoring, reimbursement request processing, and close-out of grants.

The OMBS Grants Unit's goal is to provide pass-through recipients with the contract management, technical assistance, and grant monitoring they need to successfully complete their conservation work. The Grants Unit provides grantees with one consistent point of contact for their agreements and delivers timely, responsive, customer service. The Grants Unit also collaborates with LCCMR staff as necessary to ensure the appropriate administration of projects.
